5LM10-DC/X6000-O/N– Mechanically Switched Triplexer

5LM10-DC/X6000-O/N is a field configurable mechanically switched triplexer used to interface a vehicular antenna to either a one or two radio system. The package is well suited for harsh environmental concerns.

Broadband frequency performance to 6.0 GHz with low insertion loss and high channel to channel isolation, with 100 W continuous power handling in all bands

Please contact K&L Microwave for further details.
